

Cure-Confirmation Rescrape: 16251 Waikiki Ln

Generated UTC: '2026-06-13T14:24:00Z'

Bottom Line

The refreshed data supports opening a title-cure / corrective-chain review for '16251 Waikiki Ln, Huntington Beach, CA 92649'.

This is not yet proof of a void transfer. It is a high-confidence record-chain target because the current RecorderWorks index and detail scrape confirm a grant deed and same-day deed of trust, the deed detail exposes transfer-tax and tract/lot fields, and the county GIS parcel endpoint confirms the APN/address identity.

Cure Review Confidence

Score: '0.86 / 1.00' for need-to-cure investigation.

Basis:

- '+0.30' fresh RecorderWorks exact-document rescrape matched '2024000290531'.
- '+0.20' fresh RecorderWorks exact-document rescrape matched same-day financing companion '2024000290532'.
- '+0.20' deed detail exposed 'Transfer Tax Amount: 1295.2500', which computes to '\$1,177,500'.
- '+0.15' deed detail exposed 'City: Huntington Beach', 'Lot #: 90', and 'Tract #: 3750'.
- '+0.10' county GIS confirms APN '178-083-15' maps to '16251 WAIKIKI LN HUNTINGTON BEACH'.
- '-0.09' certified deed images and the 1994/2003/2005 chain documents are still needed before claiming a void transfer or naming who must disclaim.

Fresh RecorderWorks Rescrape

Source: 'https://cr.occlerkrecorder.gov/RecorderWorksInternet/'

Run artifact:

- '/Users/ALISTAIRE/housing-fraud-intel-api/exports/title_repair_16251_waikiki_rescrape_20260613_recorder_docnum_pull.csv'
- '/Users/ALISTAIRE/housing-fraud-intel-api/exports/title_repair_16251_waikiki_rescrape_20260613_recorder_docnum_pull_summary.json'
- '/Users/ALISTAIRE/housing-fraud-intel-api/exports/title_repair_16251_waikiki_rescrape_20260613_document_views/'

Fresh matched rows:

Document	Type	Date	Grantor	Grantee	Portal doc id	Pages
'2024000290531'	GRANT DEED	11/6/2024	BARTMAN GREGORY GEORGE TR	REDMOND ROBERT GODFREY RUTH	'31159554'	3
'2024000290532'	TRUST DEED	11/6/2024	REDMOND ROBERT GODFREY RUTH	V I P INDEPENDENT MORTGAGE; MORTGAGE ELECTRONIC REGISTRATION SYSTEMS INC	'31159532'	37

Fresh details recovered from '2024000290531':

Field	Value
City	Huntington Beach
Transfer Tax Amount	'1295.2500'
Non Disc Tax Amount	'0.0000'

Lot #	'90'
Tract #	'3750'
Number of Pages	'3'
Recording Date	'11/6/2024'

Computed consideration:

'1295.2500 / 1.10 * 1000 = 1,177,500'

Interpretation: the refreshed RecorderWorks detail independently supports the exact '\$1,177,500' consideration figure already aligned with public listing-source sale history.

County GIS Parcel Confirmation

Source:

'https://www.ocgis.com/arcpub/rest/services/Map_Layers/Parcels/MapServer/0/query?where=ASSESSMENT_NO%3D%27178-083-15%27&outFields=ASSESSMENT_NO,SITE_ADDRESS,YEAR_BUILT,NBR_BEDROOMS&returnGeometry=false&f=json'

Refreshed response:

Field	Value
ASSESSMENT_NO	'178-083-15'
SITE_ADDRESS	'16251 WAIKIKI LN HUNTINGTON BEACH'
YEAR_BUILT	'1963'
NBR_BEDROOMS	'3'

Interpretation: OC GIS confirms the APN/address identity. The deed itself still needs certified image/legal-description confirmation to prove that document '2024000290531' conveys this exact parcel.

Public Sale-History Checkpoints

Current public listing-source checkpoints to verify against official chain documents:

Public sale date	Public sale price	Status
11/6/2024	'\$1,177,500'	Matched exactly by RecorderWorks transfer-tax computation for '2024000290531'.
12/2/2005	'\$729,000'	Public-history checkpoint only; official recorder instrument number still needed.
9/3/2003	'\$483,000'	Public-history checkpoint only; official recorder instrument number still needed.
3/15/1994	'\$206,000'	Public-history checkpoint only; official recorder instrument number still needed.

Listing-source URLs:

- Redfin: 'https://www.redfin.com/CA/Huntington-Beach/16251-Waikiki-Ln-92649/home/3868041'
- Zillow: 'https://www.zillow.com/homedetails/16251-Waikiki-Ln-Huntington-Beach-CA-92649/25298849_zpid/'

Note: direct command-line archive capture for Redfin/Zillow returned empty responses in this environment, likely anti-bot blocking. Use the public pages as corroborative lead sources only; the official cure record should rely on RecorderWorks certified copies and assessor/parcel records.

Why This Supports Cure Work

The cure need is supported by a record-chain gap, not by a completed fraud conclusion:

- Current deed target is identified: '2024000290531'.
- Current encumbrance/financing companion is identified: '2024000290532'.
- Current deed consideration has an exact transfer-tax-derived value match.
- Parcel identity has independent county GIS support through APN/address.
- The older public sale checkpoints identify the exact chain intervals that must be certified before determining the first defective or voidable conveyance.

Next Pulls Required Before Demanding Cure

1. Pull certified/official copy of '2024000290531'.
2. Pull certified/official copy of '2024000290532'.
3. Extract APN, legal description, vesting, preparer, title/escrow, notary, and all signature authority language.
4. Run official chain search by APN/address for the 2005, 2003, and 1994 public sale checkpoints.
5. Pull companion trust deeds, reconveyances, substitutions, assignments, PCOR/DTT material if available, and any same-day adjacent documents.
6. Identify the first allegedly void or voidable transfer only after the certified chain confirms the grantor/grantee sequence.
7. Draft quitclaim/corrective deed demand only after confirming current holder, encumbrancers, and necessary disclaiming parties.
8. If refused, evaluate quiet title / cancellation of instrument as the more complete procedural vehicle.

Evidence Boundary

This packet confirms a strong need for title-chain cure review. It does not independently prove fraud, void title, forged authority, or entitlement to relief. Certified official copies and legal review remain required.
