Procedural Boundary

- Pull certified/official copies for '2024000290531' first.
- Pull every linked deed/transfer back through '11/06/2024', '12/02/2005', '09/03/2003', and '03/15/1994'.
- Identify the first allegedly void transfer only after the record chain confirms the grantor/grantee sequence.
- Prepare any quitclaim demand or corrective deed request only after confirming who currently holds title and who must disclaim.
- If refused, quiet title / cancellation of instrument may be the stronger procedural vehicle than quitclaim alone, but that depends on certified records and legal review.

Evidence Boundary

This is a title-chain work queue and evidence log. It does not identify the void transfer or prove

fraud without certified chain documents.
